

VINYL REPLACEMENT WINDOWS  
**SERIES 3000**

## THE VIEW YOU'VE BEEN MISSING

At ViewPoint Windows & Doors, we make beautiful, high-performance, eco-friendly windows and doors that you can be proud to make a part of your home. Low-E glass and our Warm-Edge Insulated Glass Sealant System are offered in every product, enabling us to meet or exceed the highest energy standards—and ensuring a more comfortable, consistent temperature in your home and more cost-savings in your wallet. We compound and extrude our own vinyl to maintain the highest quality and to reduce waste, and we recycle our own vinyl scrap to maximize yield and minimize the impact on local landfills. Even our glass components are made from up to 28 percent of reclaimed glass. And every product undergoes rigorous quality-control measures to make sure you're getting the highest craftsmanship that will stand the test of time.

When you're looking for the perfect windows or doors for your home, don't miss the view from ViewPoint. All of our products are available exclusively through Norandex, America's trusted building materials distributor for over 50 years.

ENERGY-EFFICIENT • LOW-MAINTENANCE • BEAUTIFUL • ENVIRONMENTALLY FRIENDLY

### VIEWPOINT SERIES 3000

Dependable and Stylish.

With the growing emphasis on greener living, you're probably looking for windows that are not only an attractive, aesthetic addition to your home, but also an energy-efficient, cost-saving solution that can stand the wear and tear of a few decades without diminishing in performance or visual appeal.

Seems like a tall order—and a potentially expensive one at that—until you get to know the benefits of ViewPoint's Series 3000:

- **Durable.** Unlike wood or aluminum, our vinyl windows will never rust, rot, corrode, blister, flake or fall victim to insect or termite infestation.
- **Low-maintenance.** ViewPoint vinyl windows are easy to clean and maintain, and can stay looking new and beautiful for decades after installation.
- **Affordable.** ViewPoint vinyl windows are an affordable, long-lasting option that can fit nearly any budget.
- **Energy-efficient.** With features like optional Low-E glass and our Warm-Edge Sealant System, our vinyl windows meet the highest industry standards in energy efficiency.
- **Attractive.** ViewPoint offers beautifully crafted styles to fit a variety of home aesthetics, including custom shapes and specifications.

- 1 Jamb depth is 3.25".
- 2 Beveled main frame provides aesthetic appeal.
- 3 Interlocking sash rails minimize air infiltration.
- 4 Half screen comes standard. Full screen optional.\*
- 5  $\frac{7}{8}$ " **Warm-Edge Glass System** ensures superb energy efficiency.
- 6 Sloped sill further protects against wind and water infiltration.
- 7 Frame is fusion-welded for added structural integrity.
- 8 Constant force coil balance lets you easily operate sash.
- 9 Two push button night latches let you easily position sash for room ventilation.
- 10 Round locks provide peace of mind. Two locks come standard on all windows over 27  $\frac{1}{4}$ " and wider.
- 11 Fusion-welded sash corners provide structural stability and added protection against air infiltration.
- 12 Integrated lift rail looks sleek and attractive and lets you raise and lower windows with ease.
  - Grid options:  $\frac{5}{8}$ " or  $\frac{3}{4}$ " flat,  $\frac{5}{8}$ " or 1" contoured
  - Color options: White, Almond
  - DP Rating 35

Manufacturer reserves the right to substitute components as necessary.  
\*Screens are not meant to restrain a child from falling through an open window.

If you're looking for dependable, yet stylish windows and doors, we invite you to take a closer look at ViewPoint's Series 3000.

SLIDER WINDOWS

## SLIDER WINDOWS

These practical horizontal windows are available in 2- and 3-Lite styles. The solid vinyl frames glide smoothly, and take-out sashes mean easy cleaning. Interlocking meeting rails ensure extra snugness. Virtually maintenance-free, they never need painting. Choose from white or almond.

BAY & BOW WINDOWS

## BAY & BOW WINDOWS

Vinyl bay and bow windows enable you to create window seats, breakfast nooks and other options. You can choose from a variety of styles, from 3 to 5 Lites, and you can also select double hung or casement windows to flank the middle picture. The flankers open to provide ventilation.

Bay and bow windows arrive completely assembled and are simple to install and customize. They come in your choice of white or almond.

## GRID OPTIONS

Our between-the-panes grid options provide the traditional and classic window appearance homeowners seek and make cleaning simple.

Available patterns range from Colonial to Diamond to Prairie and enhance the cosmetic appeal of any home. Choose your pattern from these styles:

- $\frac{5}{8}$ " or  $\frac{3}{4}$ " Flat
- $\frac{5}{8}$  or 1" Contoured

1" Contoured grid

PICTURE WINDOWS

CASEMENT WINDOWS

## CASEMENT & AWNING WINDOWS

Casement window styles range from single-vent to 5-Lite combinations of fixed and operating units and open a full 90 degrees, making it easy to clean the entire window surface from inside. Standard full screens come on all casement vents, mounted on the inside. Optional light or dark oak interior wood and bronze exterior finishes are also available.

Awning windows are simple to crank, control fresh air flow and open to the outside, keeping the indoors dry, even in rain. Each window comes with concealed hinges and operating hardware that ensure a smooth, clean look. A full screen is standard on all vented units.

The construction of both windows includes a beveled frame that encloses  $\frac{3}{4}$ " insulated glass. A fusion-welded frame and sash ensure greater strength and longer wear, while sealed corners keep air and water out.

Both windows come in your choice of white or almond and are available with decorative grids in Colonial or Diamond styles.

GARDEN WINDOWS

## GARDEN WINDOWS

A 17  $\frac{1}{2}$ " garden window depth provides a generous area for plants, picture frames or added room space, with lots of energy-efficient and maintenance-free features. The roof glass panel features safety laminated glass for added protection.

There is a hand-sanded 1  $\frac{1}{4}$ " birch veneer surround, and  $\frac{7}{8}$ " insulated glass delivers maximum thermal performance. Side casement vents have conveniently located handles for easy ventilation. A multi-point locking system and corrosion-resistant hardware enhance window security.

Garden windows are also available in white or almond. Options include  $\frac{5}{8}$ " Colonial grid, premium quality oak hardwood surround and sill muffler.

## SLIDING DOORS

Sliding doors offer both beauty and durability. They will never chip, peel, crack or rot. They are virtually maintenance-free and available in a wide range of glass options and colors.

### MODEL 332

ViewPoint Sliding Patio Door  
DP Rating R50 (on 5068 and 6068)

- 7/8" insulated Warm-Edge Sealant System with tempered glass for reduced condensation and energy efficiency
- All-welded frame and panel pre-assembled for easy installation
- Reversible panel design allows for moving panel to be located on left or right side (6' 8" height only), (custom sizes and BBG not reversible)
- 8' height available (5080, 6080, 6480)
- Aluminum track for moving panel
- Screen comes standard
- 4 1/16" jamb depth
- Multi-point lock
- Custom sizes available

#### Model 332

Color Options: White, Almond

Offered in range of sizes: 5', 6', 6'4", 8', 9', even 12'

### MODEL 312

Smooth sliding door won't stick or catch

- 7/8" insulated Warm-Edge Sealant System with tempered glass for reduced condensation and energy efficiency
- All-welded frame and panel pre-assembled for easy installation
- Reversible panel design allows for moving panel to be located on left or right side (custom sizes and BBG not reversible)
- Color matched handle standard
- Aluminum track for moving panel
- Sliding panel and meeting rail reinforced with roll-formed steel to ensure rigidity and strength
- Screen comes standard
- Interlocking panel virtually eliminates air infiltration
- Also available with side lites, transoms and specialty shapes
- Custom sizes available

#### Model 312

Color Options: White, Almond

Offered in range of sizes: 5', 6', 6'4", 8', 9', even 12'

### MODEL 311

Quality alternative sliding door

- 7/8" insulated Warm-Edge Sealant System with tempered glass
- All-welded frame and panel pre-assembled for easy installation
- Reversible panel design allows for moving panel to be located on left or right side
- Integrated nailing fin
- Aluminum track for moving panel
- Sliding panel and meeting rail reinforced with roll-formed steel to ensure rigidity and strength
- Screen optional
- Interlocking panel virtually eliminates air infiltration
- White enamel handle with lock
- Low-E optional
- 5/8" or 3/4" Flat and 1" Contoured grid optional

#### Model 311

Color Option: White

- 5/8" or 3/4" Flat Grid
- 5/8" or 1" Contoured Grid
- 1 1/8" Simulated Divided Lite (SDL) Grid

#### Also Available:

- Heavy Duty Screen available on 312
- Brushed Nickel Handle

# WITH LOW-E COATING & OTHER OPTIONS, YOU REALLY CAN DO SOMETHING ABOUT THE WEATHER.

## LOW-E COATED GLASS

Choose Low-E for the most effective, insulating solar control glass available. Its special, double layer of silver coating dramatically limits the sun's penetrating heat during the summer by reflecting long-wave heat energy. During cold winter months, Low-E maintains your home's warm, comfortable indoor temperature by permitting short-wave heat energy to enter, while keeping cold temperature out.

The key to maximum energy savings: optional Argon Gas between your Low-E glass panes. Like an invisible blanket, this insulating gas boosts your window's thermal performance.

## ULTRA LOW-E GLASS WITH ARGON GAS (also known as Tax Credit Low-E Glass with Argon Gas)

For optimal energy efficiency and maximum cost savings, choose our ultimate glass package: Ultra Low-E Glass with Argon Gas. Windows with this glass treatment offer superior thermal performance by combining three layers of silver with the insulating power of Argon. This glass option is designed to meet stringent energy code criteria anywhere low thermal numbers are desired.

In the summer, Low-E glass reduces heat gain from the sun to help keep homes cooler.

In the winter, Low-E glass lets the warm, solar rays in while blocking the heat in the home from getting out.

## OUR WARM-EDGE GLASS SYSTEM: IT'S WHAT GIVES US OUR COMFORTABLE EDGE.

- $\frac{7}{8}$ " or  $\frac{3}{4}$ " insulated glass panel provides an optimum, tightly sealed air space that acts as a highly effective noise buffer and keeps inside air from escaping and outside air from penetrating.
- U-channel with thick, insulating buffered edge keeps heat and cold from traveling through the window by insulating the glass from the frame. In winter, the glass surface stays warmer, so you get less condensation. During summer, the surface stays cooler. Year-round, you enjoy nicer indoor temperatures.

## WARRANTIES

Each ViewPoint Series 3000 vinyl replacement window comes with a standard *Lifetime Limited Warranty* on the vinyl and all working parts as well as a lifetime warranty against glass breakage. And throughout the warranty period, you can easily obtain replacement parts because each unit is individually registered, with a warranty identification number prominently displayed on a special sticker for your convenience. Refer to this ID number when you call to order new parts.
